Features

Air quality control system CO₂-sensor:

This heater is equipped with a CO₂-sensor. The heater will be switched off when the room is not ventilated sufficiently.

High-tech burner:

This heater is equipped with a burner system that heats up extremely quick and very gradual. This gives a more comfortable heating sensation.

Fuzzy logic:

This heater is equipped with a self-regulating temperature control system. The heating mode can be set according to the requirements.

Semi-automatic operation:

This heater is equipped with a 24-hour programmable timer and integrated thermostatic control to maintain the desired room temperature.

Wickless design:

Provides clean and economical heating without wick maintenance or replacement.

Information display:

The digital displays helps to keep track of all the important heater functions.

Safety devices:

This heater is equipped with a combustion quality sensor, an over-heat protector, a tip-over switch, a safe top and a burner thermistor for safe heating.

Safety system:

This heater is fitted with a safety system that automatically switches off the heater after approximately 48 hours of continuous operation. Use the safety stop to switch off the heater immediately.

Smart Save mode:

The 'SAVE' function allows you to keep the set temperature in the room. This saves on the energy consumption.

Childproof lock:

When this button is pressed, the operation of buttons will be blocked, except the on/off button.

Touch panel display:

The state of the art display combines contemporary design with maximum convenience.

Automatic airflow control:

The speed of the built-in fan is self-regulatory, depending on the burning mode of the heater.

Large autonomie:

The large 5.8 l fuel tank is good for up to 37h of pleasant heat.

Additional heat output:

All consumed electric energy is emitted in the room to be heated.

Quiet operation:

When heating the room, the device produces only a limited amount of sound. Also in the start up phase, the heater produces very little sound.

Recyclability:

Over 90% of the heater can be recycled.
